

## Commission to Host Second Member Meeting

### Agenda and Live Streaming Information Posted on Vision Initiative Website

The Continuing Board Certification: Vision for the Future Commission (Commission) will host its second, in-person meeting May 30 – June 1 in Denver, CO. Commission members will again hear testimony on continuing certification from a range of stakeholders who will provide their perspectives and experiences with continuing certification as well as explore opportunities for the program in the future. As in March, portions of the May meeting will be open to the public. The [meeting agenda and live streaming information](#) are now available on the official Vision Initiative website: [visioninitiative.org](http://visioninitiative.org).

In addition to preparing for the May meeting in Colorado, the Commission completed the open stakeholder survey on May 11. Launched in February, the survey sought feedback from a diverse group of stakeholders and garnered responses from more than 36,000 participants. The survey responses will offer the Commission further insight and feedback on continuing certification in its current form as well as ideas for the program in the future.

We appreciate the engagement that you and your colleagues continue to exhibit regarding the Vision Initiative and the work of the Commission. We hope you will continue to follow the progress of our work by regularly visiting the website for Commission meeting information, progress updates, and opportunities for your feedback and input. In addition, we encourage you all to share this update with your colleagues so they too can become involved and participate in the process as well.

Sincerely,

Christopher Colenda, MD, MPH
